

Disabled Refuge Call System Handset (Type A) (EVC/SR)

FMO/RCO/SR Revision 2, 7th April 2009

A Fire Telephone and Disabled Refuge remote version can be supplied as an alternative to having two systems. Both flush and surface mounting units can be supplied. The surface unit has a red leatherette (RAL9001) mild steel back box. A call is made by simply lifting the remote handset (Red). This will illuminate the switch on the master control panel as a conventional fire telephone call. A duplex configuration similar to standard telephone will be initiated. The front face of the surface enclosure has a sloped frame (see dimensions below).

Dimensions: -	
Surface	329mm (H) x 182mm (W) x 96mm (D Top), 81mm (D Bottom)
Flush	379mm (H) x 232mm (W) x 1.5mm (D)
Back box behind flange	332mm (H) x 182mm (W) x 77mm (D)

Power Consumption: -	
Quiescent	6 mA @ 24 volts
Calling	30 mA @ 24 volts
Active	40 mA @24 volts
